Jalyn Behunin, MSN, RN, CCRN,
NE-BC
Chief Nurse Executive Officer

Description: The Dignity Health-St. Rose Dominican, San Martín Campus is the third St. Rose hospital facility in southern Nevada, specifically located to serve the rapidly growing area of southwest Las Vegas. Since 2006, San Martín has followed the foundation established by the Adrian Dominican sisters who arrived in Henderson more than seven decades ago, providing unparalleled care for the body, mind and spirit.

The 147-bed, 30-acre campus includes a 24-hour, full-service Emergency Department, Surgical Suites, Cardiac Catheterization and Electrophysiology Lab, Diagnostic Imaging, Orthopedics, Cardiovascular and Neurological Services, and a Wellness Outreach Center offering life-long care for the entire family through a range of free and low-cost fitness and education classes.

San Martín has achieved accreditation as a Center of Excellence in Robotic Surgery, recognized for providing the highest quality of care and patient safety by the Surgical Review Corporation, an independent, not-for-profit, organization that administers best-in-class accreditation programs for medical facilities and professionals.

In everything they do, the doctors, nurses and medical staff at San Martín carry on the tradition of *humankindness* and, as part of the community's only not-for-profit, faith-based health system, remain guided by the vision and core values of the founding Adrian Dominican Sisters since 1947

San Martin Fast Facts:

- Opened in 2006, 147 Inpatient beds
- The San Martin Campus achieved accreditation as a Center of Excellence in Robotic Surgery, recognized for providing the highest quality of care and patient safety by Surgical Review Corporation, an independent, not-for-profit, organization that administers best-in-class accreditation programs for medical facilities and professionals.
- San Martin Campus earned *Chest Pain Center Accreditation with Primary PCI* from the American College of Cardiology, based on rigorous onsite evaluation of the staff's ability to evaluate, diagnose and treat patients who may be experiencing a heart attack.

- Surgeons at San Martin recently became the first in Nevada to perform a minimally invasive Hybrid AF™ Convergent procedure designed to treat patients diagnosed with long-standing persistent atrial fibrillation.
- U.S. News & World Report, the global authority in hospital rankings and consumer advice, has named the San Martin Campus a High Performing hospital in its 2023-24 survey. High Performing is the highest award a hospital can earn in U.S. News' Best Hospitals Procedures & Conditions ratings. In recognition of care that was significantly better than the national average, as measured by factors such as patient outcomes, San Martin earned High Performing ratings for Heart Attack and Kidney Failure.
- San Martin earned the 20232 Get With The Guidelines® - *Stroke Gold Plus Quality Achievement Award* and also qualified for the Target: Type 2 Diabetes Honor Roll. The award recognizes commitment and success in implementing a high standard of stroke care by ensuring stroke patients receive treatment that meets nationally accepted, evidence-based standards and recommendations.
- San Martin Hospital was included in Money.com's first-ever list of Best Hospitals for Bariatric Surgery, compiled in partnership with The Leapfrog Group, an independent national nonprofit that serves as a voice for health care consumers. The 101 hospitals listed achieved Leapfrog's standards for safety, keeping patients safe from errors, infections, and complications.
- San Martin Campus achieved the Comprehensive Center accreditation from the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP) for commitment to providing and supporting quality improvement and patient safety efforts for metabolic and bariatric surgery patients. As an accredited program, San Martin demonstrated it meets patient needs by providing multidisciplinary, high-quality, patient-centered care.
